1. Must have Google Earth (GE)installed in your PC
2. Download chartbundle.kml remember where you placed it. (to the Desktop is easier)
3. Open GE
4. Click on FILE (left top corner) then OPEN:

5. Double click the chartbundle.kml file you downloaded in step 2.
6. You will see "Chartbundle Aviation Charts" entry below on the left side of the screen

7. Click on the empty box next to "Chartbundle Aviation Charts," a checkmark should appear in the box and a small rotating segmented circle will appear next to the "C" in Chartbundle. Give it a minute or two.
8. Unchecked every box except SECTIONAL CHARTS (don't need those)

9. The Phoenix Sectional Chart will appear over GE. Clicking on the checkmark again will make the sectional go away. The loading of the Sectional chart can be slow, depends on your PC's speed.
